U.S. EXPORT SALES

- Outstanding Export Sales
(Unshipped Balances)
On December 14, 1975
- Export shipments in
Current Marketing Year
- Daily Sales reported
December 15 - 23, 1975

-- As Reported by Exporters

Readers of this release are cautioned that it reports sales commitments outstanding as of the date indicated, all of which are subject to modification, deferral or cancellation by mutual agreement of the parties. It is unlikely that all reported quantities will be exported. Our experience with this monitoring system suggests that sales are apt to exceed exports, sometimes by substantial amounts, during periods when supplies are in balance with expected demand. Actual shipments to date may provide a more reliable measure of current export activity. A meaningful export projection is not obtainable by the simple device of adding outstanding sales commitments to exports to date.

U.S. DEPARTMENT OF AGRICULTURE, FOREIGN AGRICULTURAL SERVICE

EXPORT SALES REPORT

Comments on release of December 23, 1975 (based on reports from exporters during the week ending December 14, unless otherwise noted:)

Wheat: The apparent export commitment (cumulative exports plus outstanding sales) for 1975/76 increased by 339,800 metric tons (MT). Commitments to India rose by 153,300 MT, bringing the total to that country to 4.4 million MT so far this year. Higher commitments of 89,700 MT to several Asian destinations, plus increases of 59,000 MT to Japan and 62,200 MT to Algeria more than offset reductions of 40,600 MT in commitments to Poland and 91,800 MT in commitments to unknown destinations caused by cancellations and destination changes.

Feedgrains: The apparent export commitment for feedgrains in 1975/76 jumped by 938,500 MT. Corn commitments climbed by 849,700 MT to a total of 19.2 million MT, after a sluggish four weeks when the weekly increase averaged only about 400,000 MT. A 131,500 MT increase in the commitment to the USSR reflected transfers from optional origin rather than new sales. The commitment to the European Community (EC) increased by 347,300 MT, largely on the basis of new sales to the Netherlands and West Germany. Other major increases in commitments, largely on the basis of new sales, were to Mexico (105,200 MT), Poland (64,100 MT) and Portugal (53,000 MT). Commitments to unknown destinations increased by 88,100 MT as new sales of 185,300 MT were partially offset by cancellations and destination changes.

According to the daily sales report for the period December 15-23, Romania has shifted its entire corn outstanding sales balance of 300,000 MT for 1975/76 into the 1976/77 marketing year, with delivery now expected October 1976-January 1977. A larger corn harvest of perhaps 1.0 million MT more than earlier expected should reduce Romania's corn import requirements for 1975/76.

Soybeans: The apparent export commitment for 1975/76 increased by 179,200 MT, primarily reflecting increased commitments to the EC, Taiwan, Spain, Japan and Norway. Commitments to unknown destinations decreased. Exports during the week totaled 393,800 MT, with the EC accounting for 222,200 MT; Spain, 85,700 MT; Taiwan, 54,500 MT; and Japan, 31,500 MT.

Soybean Oilcake and Meal: The apparent export commitment for 1975/76 increased by 67,700 MT, primarily reflecting increased commitments to the EC, Czechoslovakia, and Poland. Commitments to East Germany and unknown destinations declined. Exports during the week totaled 118,000 MT, primarily to the EC (85,400 MT) and Czechoslovakia (21,400 MT).

During the 4-week period November 17-December 14, the eighth through the eleventh weeks of 1975/76, the average weekly rate of exports increased sharply to 106,000 MT from the average of 63,000 MT recorded during the first 7 weeks of the marketing year. Oilcake and meal exports, unlike

soybean exports, are expected to maintain current strength during the coming months as the demand for meal continues to exceed that for oil in the major markets of Europe.

Cotton: The apparent export commitment in 1975/76 for Upland cotton declined by 13,000 running bales (RB) mostly as a result of buybacks or cancellations of cotton over 1-1/16" in staple length by Japan and the Republic of Korea. New sales for 1976/77 delivery to those countries more than offset current year cancellations. American Pima sales were made to West Germany (300 RB) and Pakistan (300 RB). U.S. prices rose on the basis of a lower crop estimate but foreign prices rose even more on the basis of reduced selling interest and improved foreign demand.

1/ Includes contract tolerance adjustments. 2/ A separate purchase of a U.S. commodity from a foreign seller, not involved in a cancellation or buy-back of a previously reported sale. 3/ Includes decreases resulting from shifts in delivery period from one marketing year to another, changes from one commodity to another, "buy-backs" of all or part of a contract balance by mutual agreement, and unilateral cancellation by one party which could result in a contract dispute. 4/ Does not include exports for exporter's own account. 5/ Less than 1,000.

Data shown above may not add due to rounding.
